

Rosacea Treatment

Duration: 25-30 minutes

Products

Green Tea Wash
Mattifying Toner
Papaya Enzyme Powder
Algae Masque
Peptide Factor 20™
C&E Factor
HyDro Moisturizer
Sunscreen SPF 30+

1. Cleanse the skin with Green Tea Cleanser and rinse.
2. Prepare the skin with Mattifying Toner with a cotton pad and allow the skin to dry. Some patients may experience a sting/tingling sensation; Ask them on the comfort scale from 1 to 10 how they feel.
3. Mix half a scoop of Papaya Enzyme Powder with equal part of Hydro Moisturizer. Apply the mixture with a fan brush and steam for 5 – 10 minutes, depending on skin sensitivity. Remove the mixture with moistened cotton pad or warm towels.
4. Apply Mattifying Toner with a cotton pad and allow the skin to dry.
5. Apply Peptide Factor 20 to the area. This serum helps reduce redness and generate new collagen, hyaluronic acid and elastin.
6. Apply C&E Factor over the area prior to the Algae Masque.
7. Apply and even layer of the Algae Masque. Leave it on for 5 - 15 minutes, depending on skin sensitivity and then remove with a moistened cotton pad or warm towel.
8. Apply Mattifying Toner with a cotton pad and allow the skin to dry.
9. Using your ring finger, apply Bonjour Eye Cream around the eye area. This cream stimulates collagen and elastin production, reduce fine lines, dark circles and puffiness.
10. Apply Hydro Moisturizer to calm, hydrate and protect the skin.
11. Apply Sunscreen Moisturizer SPF 30+ for UVA and UVB protection.
